- Deposit Approver
- Deposit Preparer and Deposit Approver

### Overview

Welcome to *Approving Deposits or Returning Deposits to Draft*. In this chapter, you will learn:

- The purpose of approving a deposit or returning a deposit to draft
- How to approve deposits
- How to return a deposit to draft

### Topics

This chapter is organized by the following topics:

2. Approving Deposits
3. Returning Deposits to Draft

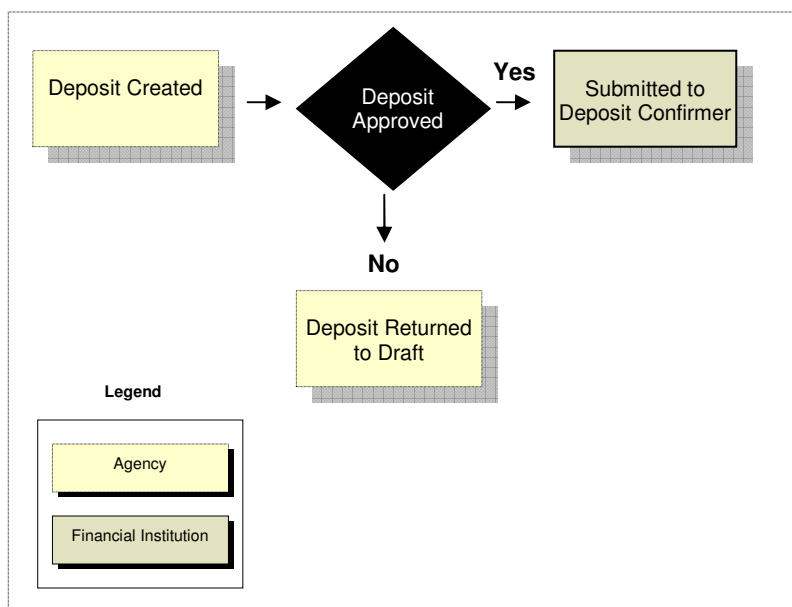

## Topic 1. Purpose of Approving Deposits or Returning a Deposit to Draft

An organization may find it necessary to enforce a separation of duties, where a designated user is responsible for approving deposits already prepared. When a deposit is approved, it is sent to your Financial Institution for confirmation. You cannot modify a deposit after it is approved (submitted) and awaiting confirmation from your Financial Institution.

You may be assigned the **Deposit Approver** or both the **Deposit Preparer** and **Deposit Approver** roles. As a **Deposit Approver**, you have the ability to approve (submit) or return a deposit to draft status. Only deposits that are saved with an **Awaiting Approval (AWAP)** status can be approved (submitted) or returned to draft status.

When a deposit is returned to **Draft** status, a **Deposit Preparer** can modify and resubmit the deposit. The deposit is returned to a Draft status if information is found to be inaccurate (e.g., incorrect currency denominations, incorrect total deposit, etc.). See Figure 1 for the process flow of approving deposits or returning a deposit to draft status.
